

MADERA/CHOWCHILLA RESOURCE CONSERVATION DISTRICT

INCREASING POLLINATORS ON YOUR OPERATION

The RCD has funding to help agricultural operations and working lands establish pollinator habitat.

Our RCD will:

Visit your site with a partner biologist specializing in pollinators and native plant species.

Create a plan in collaboration with landowner's needs.

Fund native plant supplies and other materials, if needed.

Monitor habitat and suggest maintenance annually.

Questions? Contact Amy (amy@maderachowchillarcd.org) or Kevin (programs@maderachowchillarcd.org) for more information

Please contact **Amy** (amy@maderachowchillarcd.org) or **Kevin** (programs@maderachowchillarcd.org) for more information on our Grants & WCB pollinator habitat funding and **Kevin** (programs@maderachowchillarcd.org) directly for more information on irrigation evaluations.
